

Aseptic Technique and Wound Care in the Community Workshop

Thursday, 6th October 2016, (9.15am – 3.30pm)

Education Centre, Queen Margaret Hospital, Whitefield Road,
Dunfermline, KY12 0SU

You are invited to attend an engaging and practical workshop on the development in Aseptic Technique and Wound Care in the community setting. The programme for the day will include:

- Application of Aseptic Technique in the home setting
- Assessment of wounds
- Pressure Ulcers prevention and management – what's new?
- Wound cleansing
- Best practice in skin tears
- Managing leg ulcers – cellulitis or dermatitis

Target Audience: Open to Health and Social Care Staff with an interest in Pressure Ulcer and Wound Care

This workshop is free to attend and refreshments and lunch will be provided.

Registration for the workshop is available using the link below:

<https://response.questback.com/nhseducationforscotland/xcwxfjky8>

Closing date for booking a place on the workshop is Monday, 19th September 2016.

Please book early to avoid disappointment.
