Wednesday 7th October 2020 – 1:00pm – 2:00pm

Online Check-in 12:30pm – 1:00pm

Event Platform: Microsoft Teams

The purpose of the Webinar

A webinar has been organised to launch a new educational resource developed by the NES Psychology of Dementia team. Caring for a Person Living with behavioural variant Frontotemporal Dementia (bvFTD) is a series of resources specifically developed for those caring for a person living with bvFTD.

The series includes a number of individual booklets providing information, advice, and support in relation to different aspects of caring for someone living with FTD. Exercises have also been included to help carers reflect on their own situation and provides links to further support.

The aims of the Webinar are to:

- Detail how the resource can be accessed and who by
- Guide attendees through the resource
- Highlight and give examples of resource exercises
- Provide a Q&A opportunity

Who should attend:

All health & social care staff, local authority/3rd sector staff and those who have a direct role in caring for a person living with bvFTD, including informal carers.

Facilitators:

Dr Claire Donaghey, Head of Programme, Psychology of Dementia, NES

Dr Victoria Thomson, Principal Educator, Psychology of Dementia, NES
